

It's time to stop the secondhand in our schools.

Every second our children are
exposed to secondhand smoke,
their health is in danger.

**It's against the law for anyone, including teachers and
parents, to use tobacco products on school property.**

**Secondhand smoke can make a child sick and can
cause asthma, ear infections and respiratory illness.**

**STOP THE
SECONDHAND**

**To report smoking on school
property, call Stop the Secondhand
at 1-800-992-1895. It's anonymous.**

**MASSACHUSETTS
DEPARTMENT
OF PUBLIC HEALTH**

Make smoking history.
